RULES COURT OF EQUITY IS WITHOUT JURISDICTION

Opinion Is Rendered in Case of Friedling Vs. Freedman, Seeking to Enjoin Property Transfer.

Plaintiffs in suits for damages mus await the recovery of a judgment before they may ask a court of equity to enjoin the possible debtor from disposing of his real estate. The District Court of Appeals so held today when it offirmed the action of the District Sapreme Court in refusing to enjoin Louis Freedman from transferring his property until Harry Friedling had won a suit for damages against him for the alleged alienation of the affec-

tions of Friedling's wife.

Justice Van Orsdel, in rendering the opinion of the appellate court, said:
"It is an attempt by the plaintiff in a pending action in tort for damages to restrain the defendant from selling or disposing of his real estate. A court of equity is without jurisdiction to en lebtor to await the future possibility debtor to await the future possibility of a judgment in favor of a creditor whose status as such depends upon the outcome of a pending suit. Before such relief in an independent action can be invoked there must be an existing judgment at law or a fixed and definite claim which either is or can be made a lien upon the specific property."
